

Do not interfere with competition. It is the broadcasters own fault for being such poor business managers. Everyone wins when there is competition vs a monopoly.

This is an excellent opportunity for the FCC to do the right thing for the people they represent. Send a strong message to the pathetic broadcasters that it is their own fault for inviting competition and this did not happen overnight.

The FCC should not allow a 'dictator' mentality to prevail--allow satellite radio to encourage competition and let the people decide--not the FCC!!!
